

Strong. Flexible. Precise - Our top products for a secure hold

Our wires and clasps have been setting standards in dental technology for over 90 years. Manufactured from high-quality, stainless steel alloys, they offer optimal elasticity and stability.

Discover our **Orthodontic Essentials** and convince yourself of **first-class materials** for perfect use in the laboratory.

Seamless precision - our clasps and brackets are made from one piece.

Handmade, one-piece and break-resistant

Our products are manufactured in one piece and **precisely handcrafted** - without soldered joints or welded seams. This ensures the highest quality, durability and exceptional break resistance, **without any predetermined breaking points**. All made of high-quality, **German, stainless steel alloys**.

High-quality materials

Made from **biocompatible, highly corrosion-resistant stainless steel alloys**, ensuring durability and safety in the oral environment.

Variety of shapes and sizes

Available in **various diameters and packaging units** to meet any clinical requirements.
